

TRAUMA ADVISORY COMMITTEE CONFERENCE CALL

Re: HRSA Trauma Funding

May 24, 2004

M I N U T E S

Attendees:	Dr. Ramon Johnson	Dr. William Tuefel	Carol Gunter
	Dr. David Hoyt	Bob Eisenman	Larry Karsteadt
	Dr. Christian Sandrock	William Haug	Dr. Goldman
		Linda Raby	Donna Nicolaus

HRSA FUNDING IDEAS

The Trauma Advisory Committee reviewed a listing of proposed uses for the \$500,000 that has been allotted for trauma and burns in the HRSA bioterrorism grant. After discussion of each of the proposals, it was recommended that the following projects be pursued using the grant funding:

- Contract for a surge capacity survey of hospitals for potential burn bed usage including development of a plan and procedures that will result in increased capacity (no more than \$75,000).
- Establish two strategically located disaster resource centers which will be supplied with necessary equipment as outlined in the Los Angeles Disaster Resource Centers document.

Dr. Sandrock will research costs for these proposals and put together a funding proposal for HRSA. If further input is required from the committee, another conference call will be scheduled.
